Price Information Guide

Welcome to the Cournoyer Funeral Home & Cremation Center

Dear Friends,

***The funeral home you select can make a big difference at a very difficult time.
We are honored and grateful that you have considered seeking our help in this time of need.***

Family is important to us ~ the Cournoyer family has been assisting our friends and neighbors for more than a century. In 1915 Fred L. Cournoyer began our legacy when he opened our family's funeral home and started providing the Monadnock Region and beyond with the best personal and professional service he was able to provide.

Many years have passed and Funeral Service as a business has undergone many changes ~ even in our rural area. You can visit many funeral homes within a half-hour drive of Jaffrey, and you may never realize that several are owned by a very large corporation with a strict business-like focus.

However, five generations later, the Cournoyer family continues our tradition of providing you with friendly, sincere and gentle care. As a family, we have grown up with the knowledge and understanding of all that is needed to help you and your loved ones in your greatest time of need. With our commitment to remain an independent, family owned and operated funeral home, you can be assured that we will continue to serve you for generations to come.

Being the oldest family owned funeral home in the Monadnock Region, we have not been tempted to stay idle, or to merely keep up with the times. Instead, we continue to be leaders and stay ahead of what eventually becomes the current trend in funeral service. For example, in 1959 we were among the first in the area to assist families with cremation services; our assistance with pet loss began in 1984, and personalizing and individualizing funerals has always been available here. Perhaps the most outwardly noticeable advancement was with our acquisition of New England's first and only Tombstone Motorcycle Hearse in 2007, and in 2013, we were the first in New Hampshire to offer Alkaline Hydrolysis.

Our steadfast commitment to you is to ensure that every decision you make is knowledgeable and comfortable for all. With over 100 years of experience in providing assistance, we are able to offer simple suggestions to make every service more meaningful. Additionally, we will continue to provide all families with a comfortable, safe, and homelike atmosphere, with the best personal and professional care that only a family owned funeral home can provide.

From the entire Cournoyer family, to all of our full and part-time staff, our one goal is to exceed your expectations in every way possible, before, during and after the service. We understand that every family is unique, and your needs are also unique. We will engage you in every aspect of your needs to ensure your ability to share the love, honor the life and preserve the legacy of your loved ones. And, if you are not completely satisfied with any aspect of our services, we will not charge you for what you are not happy with.

***As always, we invite you and encourage you to share your ideas, large or small,
about what more we can do, or how we can serve you better.***

Sincerely, Mark & Randy Cournoyer

Did You Know?

IT IS THE LAW. The primary intention of the Federal Trade Commission's Funeral Rule is to provide complete information on the cost of funerals to consumers to help them make more informed decisions.

- ❖ Funeral providers are required to give you a General Price List of products and services when you ask in person about funeral arrangements and you have the right to keep this list. Furthermore, funeral providers must make price information available over the telephone, so you can more easily compare costs and services and select the arrangements you want.
- ❖ In New Hampshire, embalming is not required unless there will be public viewing after 24 hours has elapsed from the time of death, or when burial will be delayed, such as when the cemeteries are closed for the winter months.
- ❖ In New Hampshire, if the body is to be cremated, 48 hours must elapse from the time of death before cremation can occur. The law also requires that the New Hampshire Medical Examiner's office must review the cause and manner of death before authorizing cremation, and the body must be cremated in a suitable solid container.
- ❖ If you select direct cremation, you may consider using an alternative container which will be less costly than a casket. Any container you select will be destroyed during the cremation process.
- ❖ In New Hampshire, there are no state laws or regulations requiring the use of grave liners or vaults. Your local cemetery officials determine if grave liners or vaults are required for burial of either caskets or urns.
- ❖ In New Hampshire, the law requires a funeral provider to deposit any money paid for preplanned funeral securely into a licensed insurance or trust company.

Things to Consider

- ❖ You may ask a friend or clergy person to assist you in making the arrangements and accompany you to the funeral home. This person should be someone you trust, and one who will be able to ask questions for you if you become distressed.
- ❖ Remember that an itemized list of all the charges must be given to you to help you plan a funeral, and you must be given an itemized list of all products and services you purchase.
- ❖ You do not have to accept any services or products that you do not want.
- ❖ You should not feel that you must choose expensive services and/or caskets or urns. Your emotional and social needs do not depend on how much money you spend.
- ❖ Preplanning your funeral eliminates the need for your family to make many of the difficult decisions while they are grieving. All of your wishes about your funeral will be observed because you have done all the planning in advance.
- ❖ If you have already prearranged your funeral, you can transfer it to another funeral home - possibly at a cost savings.
- ❖ You should be very concerned if a funeral home agrees to match or undercut a price from another funeral home. A so called 'no-walk' policy is a desperate, last resort attempt at taking at least 'some' of your money. More often than not, these practices are a great disservice to you and your family - the care you receive is always as 'discounted' as the new price is. It is important for all funeral homes to be able to compare what they offer and stand behind the prices they charge.
- ❖ You can 'shop' and compare funeral homes to choose the one that best fits your tastes, needs and budget. If the funeral home you have 'always used' hasn't 'kept up with the times' it may be time to consider a change.

Our Commitment to Knowledge and Fairness

- ❖ On the following pages, you will find our General Price List, Examples of Cash Advance Items, a Casket Price List, an Outer Burial Container Price List, a Cremation Urn Price List and a Cremation Outer Burial Container Price List. This information is being provided to you in compliance the Federal Trade Commission's Trade Regulation Rule; Funeral Industry Practices 16 CFR Part 453. These price lists are extensive and may be confusing to read. We encourage you to read this information carefully and ask any questions you may have regarding these price lists or anything else pertaining to the services or assistance we have to offer.
- ❖ We believe in the recognition and meaningful celebration of a life that has been lived and will assist in creating appropriate services and ceremonies to meet your needs. What is also important is that the arrangements be in keeping with your wishes and budget. We are a family-owned business that treats every family we serve as fairly and equally as we can. In an effort to provide the finest services possible, we are dependent upon the families we serve for making payment in a timely fashion.
- ❖ At the conclusion of making funeral arrangements, a Statement of Funeral Goods and Services Selected will be presented to you for your approval and acceptance. Your signature on the statement and contract will indicate that you personally accept the obligation and responsibility for complete payment of the funeral expenses.
- ❖ We realize that caring for the death of a loved one is often unexpected and unplanned. For legal reasons, there are limitations on what we can do financially. Please understand that the entire funeral amount is due and payable within Five (5) days of the initial arrangement conference, and before the burial or cremation takes place.
- ❖ We regret that we are no longer able to pay any cash advancements for you. Payment of all cash advance items is due at the time of the arrangement conference. The Cournoyer Funeral Home & Cremation Center accepts no responsibility for any additional or unforeseen charges, or overtime charges made by an outside agency that we have contracted with to complete the funeral arrangements you have selected. Estimated cash advance items will be corrected as soon as final amounts are made available to us. (i.e. cemetery/crematory, newspapers, caterers, etc.)
- ❖ For your convenience, we offer as many simple payment options as possible:
Bank Check ~ Personal Check (*subject to electronic funds verification*) ~ Money Order ~ Cash ~ Debit Card
Visa ~ MasterCard ~ Discover ~ American Express ~ Tribute Funding ~ Prearrangements

A 2% discount *on our services* may be available if payment in full is received at the arrangement conference and before the burial or cremation takes place. Unfortunately, we cannot offer discounts for credit card payments.

- ❖ The following are the only acceptable credit arrangements:
 - Tribute Funding:* If you are interested in applying for financing through this program, we can assist you with the simple online application process.
 - Assignable Life Insurance:* Life insurance may be used as a means of full or partial payment for funeral and other related expenses. (*Must be verified in advance*) We can assist the family with processing the various claims forms. If previously assigned, personally acquired life insurance policies lapse, or are insufficient, the family is responsible for the balance and our general payment policy will apply.
 - Entitled Benefits:* With your permission, we can assist on the family's behalf with applying for any death benefits from the Veterans Administration, Town or State Welfare Departments or Nursing Home Accumulated Funds Accounts as payment towards funeral expenses. If these funds do not meet the complete cost of the services selected, the family is responsible for the balance and our general payment policy will apply.
- ❖ We regret that we are unable to accept settlement of estates through attorneys or probate court as a means of financial arrangements. The family is responsible for paying the entire balance according to our payment policy. The family is typically eligible for complete reimbursement from the estate where a funeral home is not.
- ❖ We also regret that we are unable to accept private or 'in-house' payment plans as a means of financial arrangements. Additional financial assistance may be available to you through your local bank or credit union.
- ❖ All unpaid balances after thirty days (30) from the date of death accrue late fee charges of 1.5% per month (18% per year). All late fees are incurred from the date of death.
- ❖ All unpaid balances after ninety days (90) from the date of death will be assigned to a collection agency or attorney for appropriate action. Even if we accept late or partial payments (including those marked "Paid in Full" or similar text), it will not waive any of our rights to completely collect the total amount due.

GENERAL PRICE LIST

(Page 1 of 10)

These prices are effective April 1, 2018 but are subject to change without notice.

It is your right and our desire that you have as much information as possible regarding the cost of services that we offer. The most significant factors determining cost is the time spent by our personnel and the use of funeral home facilities. Our personnel and facilities must be immediately available 24 hours a day, every day of the year. This makes ours a 168-hour work week, and not the normally accepted 40-hour work week.

Much of what we do is apparent, and some is not. Traditions, social customs, personal feelings, tastes, and a multitude of other factors affect each funeral. Our services must conform to each family's personal wishes; religious, emotional and financial needs.

The goods and services shown below are those we can provide to our customers. You may choose only the items you desire. However, any funeral arrangements you select will include a charge for our basic services and overhead. If legal or other requirements mean you must buy any items you did not specifically ask for, we will explain the reason in writing on the statement we provide describing the funeral goods and services you selected.

This list does not include prices for certain items that you may ask us to buy for you, such as cemetery or crematory services, flowers, and newspaper notices. The prices for those items will be shown on your bill or the statement describing the funeral goods and services you selected. We do not charge you for our services in buying these items.

We cannot guarantee the availability of our staff or facilities if we are not consulted with prior to establishing the time and date of visitation or service.

No visitation or service will be scheduled on these holidays: Easter, Memorial Day, Fourth of July, Labor Day, Veterans Day, Thanksgiving, Christmas Eve, Christmas Day, New Year's Eve, or New Year's Day.

BASIC SERVICES OF FUNERAL DIRECTOR AND STAFF ~ \$ 2,445.00

Our fee for the basic services of funeral director and staff includes, but is not limited to, staff to respond to initial request for service; arrangement conference with family and responsible parties; arrangement of funeral; preparation and filing of necessary authorizations and permits; recording vital statistics; preparation and placement of obituary notice; shelter of remains; and coordination with those providing other portions of the funeral, e.g., cemetery, crematory, vault companies and others as required. Also included in this charge are overhead expenses relative to our facilities such as professional licensing, legal and accounting fees, insurance, building and utility expenses, parking lot and grounds, maintenance, taxes, equipment, furnishings, inventory costs, record keeping, and secretarial and administrative expenses.

This fee for our basic services and overhead will be added to the total cost of the funeral arrangements you select. This fee is already included in our charges for direct cremations, immediate burials, and forwarding or receiving remains.

~ CREMATION OPTIONS ~

Choosing cremation rather than burial does not diminish the value of someone's life. In fact, cremation creates many more different and unique options than burial does, to honor the individual and their life. Cremation, like burial, is simply the disposition of the physical body of the deceased. It does not preclude you from having a gathering of remembrance or creating a permanent memorial in a cemetery, columbarium or memorial garden, that can be visited regularly by family and friends.

We continually strive to be the best full-service funeral home in the Monadnock Region, and not a direct disposition service. We have carefully selected the highest trained professionals in the region to assist you with every detail; however, we do not want to take any portion of personal care away from anyone who may wish to perform the care themselves. Our level of assistance with cremation can range from complete care to simple care such as with our Direct Cremation package. ~ PREARRANGEMENT & PREPAID FUNERAL PLANS ~

The Cournoyer Funeral Home & Cremation Center offers three basic types of prearrangement plans.

- You may prepay for the services and merchandise you desire in advance which secures the cost of the items you select. This means *our service and merchandise costs* will never change,
- You may also prearrange the services you desire before the death takes place and not pay anything in advance. In this case our costs will change in the future.
- You may also prearrange the services you desire and assign the funeral home as the beneficiary of an existing insurance policy as a form of pre-payment. In this case, our costs may change in the future, as the values of policies not written by one of the licensed agents here at the funeral home, may not be as stable as the policies we offer.

In all three cases, the costs of third party providers are impossible to accurately predict and therefore guarantee. Current costs are used in the prearrangement process as a means of estimation of final expenses. All efforts will be made to honor the prearranged prices.

The Cournoyer Funeral Home & Cremation Center will also make every effort to completely honor other funeral homes prepaid funeral plans which are valid and currently in force.

~ PET ASSISTANCE ~

People say pets are almost like family. We disagree. Our pets are just as much of a part of our family as our children are! Our pets live with us and play with us. They require much of the same affection and care as our children do, and they all give us their love, affection and obedience in return.

When a pet dies, no one typically thinks of a funeral home as being able to help with the loss of an animal. Contrary to this belief, we stand ready to provide you with the same quality of care and attention to detail that our families have come to know and expect from us, even when your beloved pet dies.

After a pet dies, many families are able to bring their pets to us. For those who can't, we can pick them up from your home or veterinarian office for a small fee. (\$25.00) After hours or weekend assistance is also available for only \$50.00. We proudly serve the Monadnock Region and the immediate area with our pet assistance.

We use both the Hillside Pet Crematorium located in Concord, New Hampshire, and Greener Pastures Pet Crematory here in Jaffrey. Your pet will be brought to the crematory and will also return to our funeral home personally, by an individual, who cares, not by a common courier. Usually, it takes about one week for return service. (Because all cremations are performed individually)

We only offer assistance with individual cremations, not communal cremations (where several pets are cremated together). Therefore, you are assured and comforted knowing that you are receiving *only* your pet's cremated remains when we return them to you. This is a dignified process and your pet's privacy is assured at all times. Individual cremations also make it possible for family members to be present for the cremation if they wish and may remain there throughout the entire process.

Prices start at \$ 150.00 for a small pet and depending on the weight, prices increase incrementally. We have helped with dogs, cats, rabbits, ferrets, alpacas, guinea pigs, and countless other smaller animals. We regret that we are unable to offer cremation for horses or other large animals.

A very simple metal urn is included in the price of cremation for your pet. A simple wooden urn costs an additional \$30.00. We also offer a full line of urns and memorial jewelry if you would prefer to honor your pet in a more personalized manner.

Pet Cremation Price List

Prices for pet cremation are set by the size and weight of the animal.

50 Lbs. and under	\$ 150.00
51-75 Lbs.	\$ 200.00
76-100 Lbs.	\$ 225.00
101-150 Lbs.	\$ 250.00
151- 200 Lbs.	\$ 275.00

Staff member presence for witnessing cremation process with same day return of cremated remains \$ 100.00

With our pet assistance, we aim to provide more personal attention, while attempting to be less expensive than what veterinarians charge when they utilize third party services in order to provide similar help. We are required to pay the crematory when we deliver your pet, so prior payment is always preferred.

For your convenience, we offer as many simple payment options as possible: Personal Check (*subject to electronic funds verification*)
~ Bank Check ~ Money Order ~ Cash ~ Visa ~ MasterCard ~ Discover ~ American Express ~ Debit Card ~

EXAMPLES OF CASH ADVANCE ITEMS

These prices are effective as of April 1, 2018 but are subject to change without notice.

The items shown below are those items known as Cash Advances and/or Cash advance payments.

As an accommodation, the funeral home will pay a third party that provides services and merchandise to the Buyer in connection with the funeral, and will list those charges as "cash advances" on the Statement of Funeral Goods and Services Selected which is provided to the Buyer at the end of the funeral arrangements. Notwithstanding the fact that the funeral home is arranging payment to the third party, the contractual arrangement is between the Buyer and the third party. The funeral home is not in control of the third party providing services or merchandise to the Buyer and will not be responsible for any of the third party's acts or omissions." Since these prices are set by third parties, the prices on this list are subject to change without notice, and therefore, never guaranteed.

These items must be paid for in advance and include, but are not limited to:

Overtime Fees **\$ 100.00 to \$ 1,000.00**

(*It is not uncommon for obituaries to cost several hundred dollars.*)

OUTER BURIAL CONTAINER PRICE LIST

These prices are effective as of April 1, 2018 but are subject to change without notice.

In most areas of the country, state or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.

These prices are effective as of April 1, 2018 but are subject to change without notice.

In most areas of the country, state or local law does not require that you buy a container to surround the urn in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.

Additional Notes:

Service Animals Welcome

We always allow service animals on our premises in order to provide people with disabilities complete and equal access to our services. "Service Animal" means any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Emotional Support Animals are not service animals.

Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purpose of this definition. The work or tasks performed by a service animal must be directly related to the handler's disability. Examples of work or tasks performed include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing non-violent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting an individual to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purpose of this definition." (Service animal as defined by the ADA, Title III, subpart A 36.104 definitions, July 2010)

Under the provisions of ADA, we may ask if the dog is a service dog and may ask what tasks the dog performs for the handler.

For extended visits, we will assist in any way possible with feeding, watering, exercise and elimination.

What we expect from a service animal:

- Must be under the control of the handler at all times.
- Must be on a short leash at all times (some allowances are made under certain circumstances).
- Must not show aggression towards people or other animals.
- Does not bark, growl or whine. (However, a service dog may be trained to bark in the case of an emergency affecting the handler)
- Does not solicit attention, food or other items from the general public, nor annoy any member of the general public.
- Does not disrupt the normal course of business.
- Must be clean, well groomed, and does not have an offensive odor
- Does not urinate or defecate inside or in inappropriate locations.

We reserve the right to remove a service animal or other animal from our facility for any disruptive behavior.

The Randy P. Cournoyer Memorial Library

Randy P. Cournoyer was born on March 17, 1915. He grew up here in Jaffrey, joined his father in the operation of our family's business, and continued to be actively involved here until his death on January 1, 2001. Randy cared very much about his home town and the residents of Jaffrey and the many surrounding communities. He was truly a gentle man who helped ease the pain for many generations of local families. His assistance and guidance helped many through their grieving process. We strive to perpetuate the memory of Randy and his caring ways with this library - a great resource for generations to come. The public is encouraged to borrow the many publications on hand to assist in their healing and recovery. The library is located in the room adjacent our main office area.
